

### Rent clothing

A client can get his/her complete clothing from the “Rent clothing”. A client can choose between “Formal dress” and “Casual dress”. Based on the client’s requirement, the tailor will provide him/her a set of dress. The client can add a wallet and a smart watch if he/she wishes. However, the shop has limited number of dresses (of each type). If all the dresses are on hire, the client cannot get one. The dress list is shown below.

	<b>Formal</b>		<b>Casual</b>	
Dress	Shirt	Pant	T-Shirt	Jeans

The client will input his dress preferences. The system output the price along with his/her dress.

Consider the following values:

Formal Dress Count = 3

Casual Dress Count = 3

Wallet Count = 2

Smart Watch Count = 2

Shirt Rent Price = 600

Pant Rent Price = 700

T-Shirt Rent Price = 100

Jeans Rent Price = 300

Wallet Rent Price = 200

Smart Watch Rent Price = 500
